

How to Configure 1Password in Remote Desktop Manager for Mac

## HERE ARE THE SIMPLE STEPS

Since most of my blogs are about the Windows version of our products, you may be surprised to learn that I'm actually a devoted Apple fan! I have a MacBook, an iPhone, an iPad, and I even eat an apple a day.

And so, I thought I would prove my Apple fangirl credentials by looking at how to configure 1Password in Remote Desktop Manager for Mac. Here are the simple steps:

## **Create your 1Password Entry**

1. In Remote Desktop Manager, click New Entry – Credential Entry – 1Password.

2. In the **General** side menu, enter a name for your entry.

<ul> <li>Credentials</li> <li>General</li> <li>1Password</li> <li>More</li> <li>Permissions</li> <li>User Interface</li> <li>Information</li> <li>Sub Connections</li> <li>Attachments</li> <li>Advanced</li> </ul>	Name: Forder:	 sword	monreal		*	
Variables				Cancel	S	ave

**3.** Click on the **1Password** side menu and add your 1Password **Username**, **Password** and **Secret Key**. You can also enable the option **Always prompt with list** if you wish to be prompted with your 1Password list of credentials when connecting. Then click **Save**.

General	Mode: Web	0			
1 Password					
More	Host:	Default			
Permissions	Region:	Default ᅌ			
User Interface		Use "My Account Settings"			
Information				_	
Sub Connections	Username:	network@devolutions.net			
Attachments	Password:	•••••	Θ	8	
Advanced		Always ask password			
	Secret key:	•••••		•	
	Title:			*	
	C	Always prompt with list			
	Domain search field				
	Uuid:				

## Link Your 1Password Credential Entry to a Session

**1.** Create or Edit your session. Click on the **Credentials** dropdown menu and select **Credential Repository**. In the menu next to it, click on the dropdown menu and select your newly created 1Password entry.

top)	Telemark DC	_		
Folder:	Windjammer (Customer)\Montreal			01
Jump:	Off			
Display:	Embedded (tabbed)		Default	2
Credentials:	Credential repository	0	Windjammer (Customer)\Montreal\Admin	÷
		_	*	- 1
	rop) Folder: Jump: Disolav:	Folder: Windjammer (Customer)\Montreal Jump: Off Display: Embedded (tabbed)	Folder: Windjammer (Customer)\Montreal Jump: Off Display: Embedded (tabbed)	top)       Folder:       Windjammer (Customer)\Montreal         Jump:       Off         Display:       Embedded (tabbed)       Default         Credentials:       Credential repository       Windjammer (Customer)\Montreal\Admin

**2.** Click on the **wheel** under your entry. You'll be prompted with your 1Password credential list. Select the credential you want to link to your session, and then click **OK**.

And that's it. Ah, the joy that is 1 Password and RDM working together on a MacBook. It's like beautiful, geeky poetry!
